**NATIONAL ASSOCIATION OF CHURCH DESIGN BUILDERS
NAMES CERTIFIED CHURCH CONSULTANTS**

ARLINGTON, Texas – (February 12, 2010) – The National Association of Church Design Builders (NACDB), an organization that serves as a resource for the planning, design and construction of churches and church-related facilities, has awarded Certified Church Consultant (CCC) status to 10 members from across the nation.

NACDB members achieve certification after completing an intensive, multi-day training program that features training sessions by nationally recognized leaders in church lending, stewardship, facilities management, architecture, construction and project management. Candidates are also required to develop a thesis that addresses a church building expansion scenario and pass a written exam. Members are originally certified for a two-year period with annual refresher courses that extend certification by another two years.

The following NACDB members have achieved CCC status:

Albion Scaccia	Jeremiah Day
CORE Design Group	Mark Ehram
CORE Design Group	Peter Lutz
CORE Design Group	Teen Vebares
Church Interiors	Tom Gibson
GJS Architects	Michael Janaskie
GJS Architects	Robert Gerber
J&S Construction	Jim Vaughn
JH Batten	Chuck Trivette
JL Wallace	Jerry Wallace

“By completing CCC training, NACDB members are given a level of expertise that sets them apart from other church construction companies,” said Tobey Van Wormer, executive director of the NACDB. “Church construction takes a special ability to not only understand the needs of churches and their congregation, but also to work with building committees whose members are often looking to their builder for guidance.”

All members and associate members of the NACDB are among a select group of church designers, construction experts, and suppliers of materials and services who contribute their

knowledge and learn from peers to better serve their clients. They join the NACDB as a commitment to the churches they serve, so that they can offer them the most innovative options in church construction.

More information on the NACDB is available at www.nacdb.com or by calling (866) 416-2232.
